PROFESSIONAL SUMMARY

Full stack developer with 3 years of experience, building back ends in Java (Spring Boot and Quarkus) and Node.js, and front ends and mobile apps with React, TypeScript and React Native. I own the full delivery cycle, from data modeling to deployment and production maintenance. I have websites and applications live for real clients, with custom domains, CI/CD and a focus on performance. Automated tests, API documentation and sound architecture practices are part of how I work. I have been programming since I was 16.

TECH STACK

Back end	Java, Spring Boot, Quarkus, Node.js, REST APIs, JPA/Hibernate, JWT, RabbitMQ
Front end	React, TypeScript, JavaScript, Next.js, Tailwind CSS, Vite, HTML5, CSS3
Mobile	React Native, Expo, Expo Router, EAS Build
Databases	PostgreSQL, MySQL, relational modeling, Flyway
Infra and DevOps	Docker, Git, CI/CD, Cloudflare, Fly.io, Railway, S3-compatible storage, Linux
Testing and docs	JUnit, Mockito, JaCoCo, Swagger/OpenAPI, Postman
Practices	Clean Code, MVC, DDD, OOP, automated testing, Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer · Gustavo Dev

Jun 2024 - Present · Palmas, TO, Brazil · Self-employed, registered business since 2026

- Client work in healthcare, engineering and accounting, dealing directly with clients: requirements gathering, technical proposals, timelines and post-delivery support.
- End-to-end development of systems and corporate websites, from design to production, with custom domains, CI/CD and performance optimization.
- Post-delivery support and continuous improvement of delivered applications, keeping them stable in production.

IT Support Analyst · Platano Solution

Mar 2026 - Jul 2026 · Palmas, TO, Brazil · Part-time, alongside development work

- Handled the company's IT support: diagnosing and resolving hardware, software and network incidents.
- Triaged and logged support tickets, following them through to resolution and reducing repeat issues.
- Configured and maintained Windows and Linux workstations and internal applications.

Full Stack Developer · DS Web Dev

Nov 2025 - May 2026 · Remote · Contract

- Built complete web applications for clients, from requirements gathering to production deployment.
- Implemented React and TypeScript interfaces focused on performance, responsiveness and technical SEO.
- Built REST APIs in Java (Spring Boot and Quarkus) with JWT authentication, RabbitMQ messaging and JPA/Hibernate persistence.
- Deployed and maintained cloud environments, with Git version control and Docker containers.

Developer · Personal projects

Aug 2023 - May 2024

- Web applications with JavaScript, React and REST APIs, the groundwork for the first client projects.

FEATURED PROJECTS

Scheduling App (mobile) — React Native · Expo · Quarkus · In progress

Mobile app for scheduling and client management for an image consultant. Quarkus back end with PostgreSQL and versioned migrations (Flyway) already in place; React Native/Expo app with Expo Router navigation and builds distributed through EAS Build.

Orçamento API (quotes) — Java · Spring Boot · JUnit · Docker

REST API for managing quotes, built for reliability: 72 automated tests and 89% code coverage (JUnit, Mockito and JaCoCo). Versioned migrations with Flyway, Swagger documentation and a Dockerized environment.

Ecommerce Café — Java · Quarkus · REST API

E-commerce REST API for a specialty coffee shop, with a product catalog organized by categories and types, stock control, and a mapping layer between entities and API responses.

Notifications API — Java · Spring Boot · SMTP · RabbitMQ

Email notification microservice with asynchronous processing through a message queue and decoupled integration with other applications.

Freelancer Desk — Quarkus · React · PostgreSQL

Full stack application for freelancers to manage projects and clients, deployed to the cloud with a managed database.

EDUCATION AND LANGUAGES

Bachelor's in Information Systems · State University of Tocantins (UNITINS) · In progress, expected 2028 · **Languages:** Portuguese (native) · English (basic, technical reading)
